

## OEMServices renews its WEBSITE

Paris air show 2011 was the occasion to update our website. Discover it at [www.oemservices.aero](http://www.oemservices.aero)

## OEMClub

On May 12th 2011, OEMServices held a reception for its OEM logistics customers.

This day was an opportunity for us to present the evolution of OEMServices over the past 3 years since the merger between OEMServices and SAVE-GIE. We took advantage of this occasion to present new support products and developments.

Helicopter rides and other different activities were provided by OEMServices for its guests on this day out.

This OEM Club event was a pleasant moment that we intend to repeat soon.

## SINGAPORE OPERATIONS CENTER

OEMServices Operations centre is located close to Changi International Airport.

In Singapore, OEMServices provides logistics services to important OEM, covering the Asian region. Our teams also coordinate components services supplies to Singapore Airlines, Vietnam Airlines, Batavia and Sichuan Airlines for their fleet of A320 , A330 , A 340 , A380.
